### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The invention as claimed is free of prior art of record. The prior art does not teach or suggest a method for inducing cardiomyogenesis and/or mitosis or proliferation of cardiomyocytes in a subject in need thereof by directly administering a high dose (0.04mg/Kg) of a plasmid vector encoding the VEGF1-165 to the cardiomyocytes or tissue comprising the cardiomyocytes. At best the prior art (Vale et al, Circulation 102:965-974, 2000, ref of record) teaches the induction of angiogenesis in myocardial ischemic tissue by administering a low dose of pVEGF165 but falls short of disclosing the induction of cardiomyogenesis in any subject. The applicant's invention clearly demonstrates the induction of cardiomyogenesis in response to a higher dose of a plasmid vector encoding VEGF1-165.

The art made of record below is considered pertinent to applicant's disclosure:

- *Plasmid-mediated VEGF gene transfer induces cardiomyogenesis and reduces myocardial infarct size in sheep. Janavel et al, Gene Ther. 2006 Aug;13(15):1133-42. (ref. of record)*
- *Entrance in mitosis of adult cardiomyocytes in ischemic pig hearts after plasmid-mediated rhVEGF165 gene transfer. Laguens et al. Gene Ther. 2002 Dec;9(24):1676-81. (ref. of record).*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sumesh Kaushal whose telephone number is 571-272-0769. The examiner can normally be reached on Mon-Fri. from 9AM-5PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Woitach can be reached on 571-272-0739. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
